DWB Consulting Services Ltd.

Your Experienced Choice for Jet Boat Services in Northern BC

DWB Consulting provides highly skilled, certified captains with experience in operating on many of Northern BC large river and lake systems. All captains have minimum training certifications including: Transport Canada's Small Vessel Operating Proficiency (SVOP) and Marine Medical First Aid (MEDA3), WCB Level 1 First Aid, Advance River Boat Operation Training and Canadian Safety Council Swift Water Rescue.

Both our vessels are Transport Canada certified for commercial operation on Canadian Waters and include a custom 18.5' Alicraft with 200 HP Sportjet and custom 18' custom Exact Expedition with 350HP inboard. Our vessels are meticulously maintained by the manufacturer to the highest safety standards that meet the requirements of our primary commercial clients including: oil and gas pipelines, BC Hydro, utilities, mines, rail, highways and forestry.

In addition, DWB adheres to high safety standards and is certified with IS Networld, Browze and BC Forest Safety Council.
